

Hopper includes Bluetooth functionality that allows you to listen through Bluetooth audio devices such as sound bars or headphones

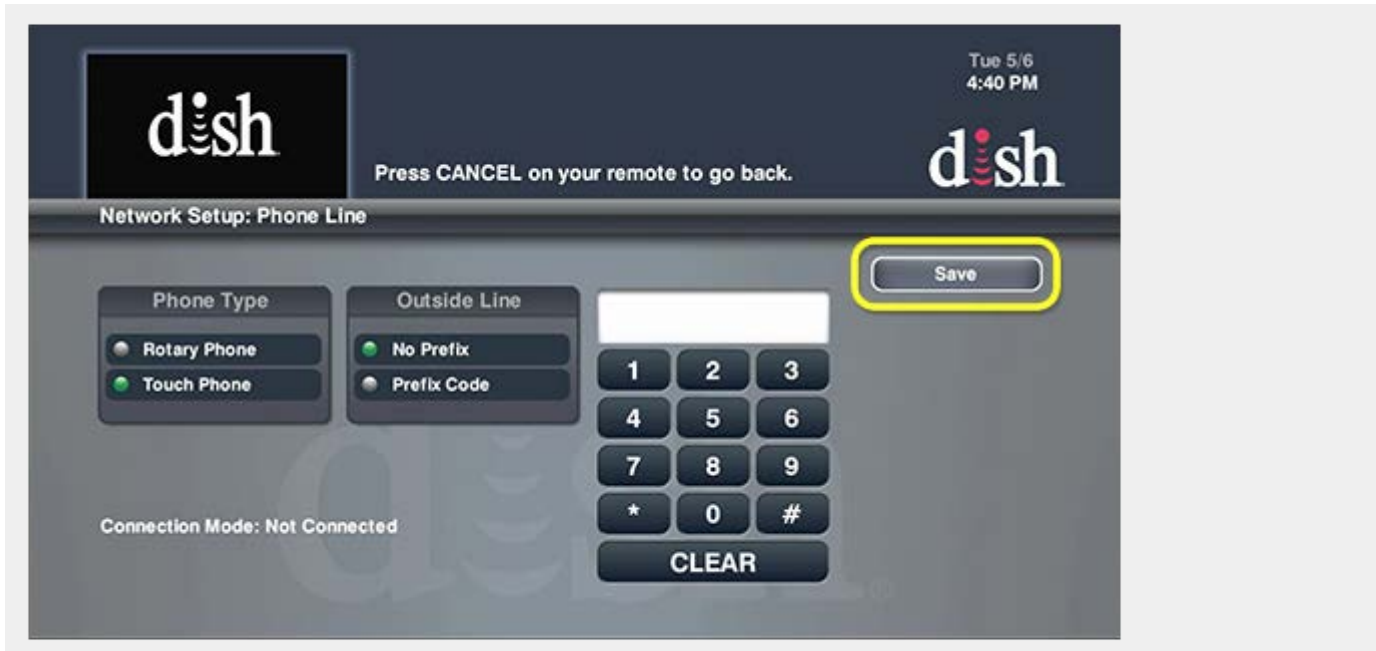

1. Press the MENU button

2. Select Settings

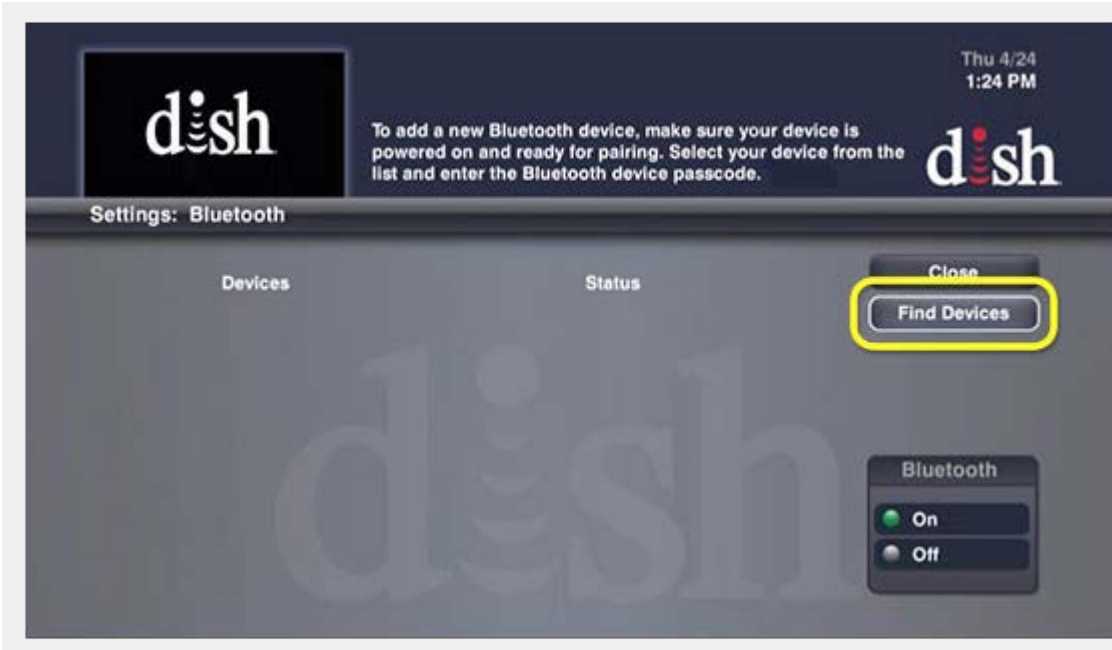

3. Select Bluetooth

4. Turn on your Bluetooth headphones or speakers and make sure they are ready for pairing

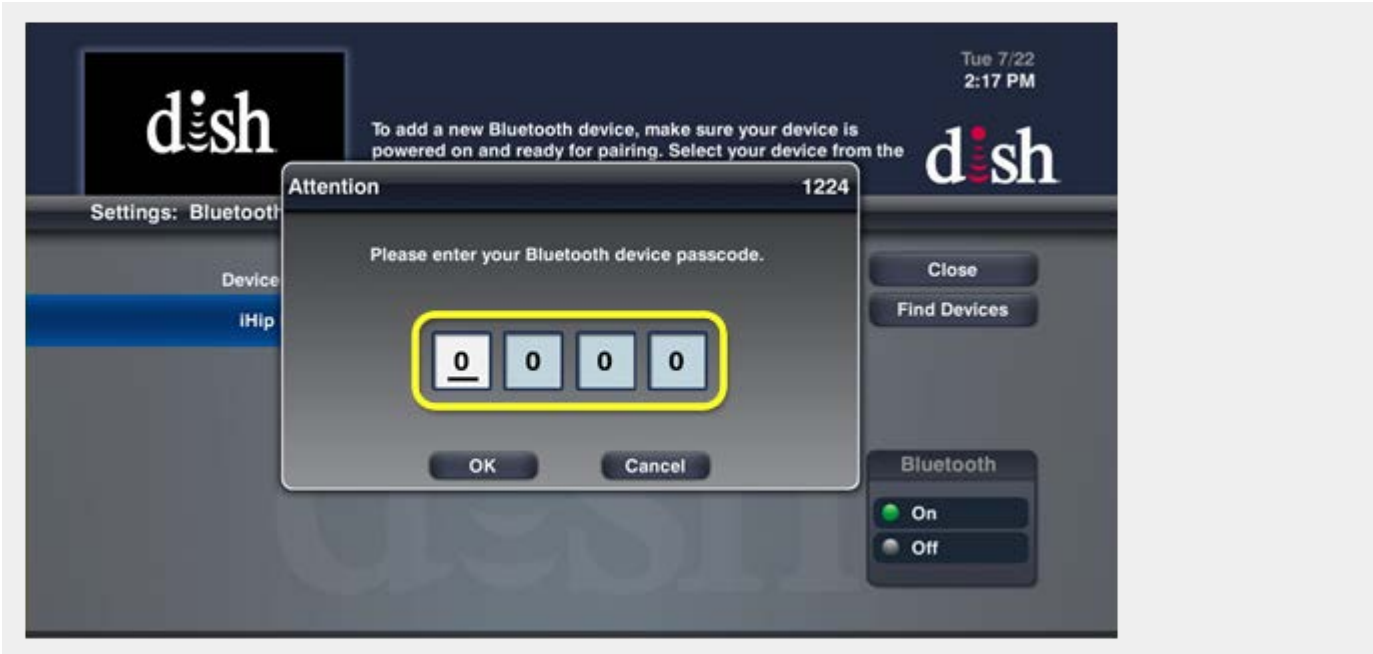

5. Select Find Devices

6. Attention 1223 will display. It may take up to one minute to pair.

7. Enter the device passcode. If the the device does not require a passcode, or no passcode was set, use the auto-populated 0000.

8. Select OK

9. The device status will change to Paired - Connected
